DETAILED ACTION

Final Rejection

Claims 16-30 are pending.

Oath/Declaration

The reissue oath/declaration filed with this application is defective because it fails to contain the statement required under 37 CFR 1.175(a)(1) as to applicant's belief that the original patent is wholly or partly inoperative or invalid. See 37 CFR 1.175(a)(1) and see MPEP § 1414.

The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414.

A supplemental oath/declaration with the above statement is required because the amendment to the specification and claims is not identified in the original reissue oath/declaration. See MPEP 1414.01.

Claims 16-30 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the reissue application is set forth in the discussion above in this Office action.

Specification

The disclosure remains objected to because of the following informalities: This application contains sequence disclosures that are encompassed by the definition for nucleotide sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the Notice To Comply With Requirements for Patent Applications Containing Nucleotide Sequence Disclosures filed on 4/30/04.

A sequence is listed in the specification (Figure 2A), but is not listed in the CRF.

Appropriate correction is required.

Applicant's arguments filed 8/22/04 have been fully considered but they are not persuasive because the sequence depicted in Figure 2 is set forth in SEQ ID NO: 2 is for Figure 2B and not Figure 2A. Figure 2A remains missing a SEQ ID NO.

Claim Objections

Claims 16-18 are objected to because of the following informalities: the amendment format for the claims is improper.

For each new claim added to the reissue by the amendment being submitted (the current amendment), the entire text of the added claim must be presented completely underlined.

See MPEP 1453.

Appropriate correction is required.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
